

AA SELL BETTER TOGETHER

# Turn Detection Into Action. From Falcon to Fix.

## Close the Falcon gap.

Customers want automation, not just alerts. vRx lets you offer real, measurable security outcomes

## Falcon finds it. Vicarius fixes it

CrowdStrike identifies risk. Vicarius automates full-cycle remediation across OSs and 10,000+ applications.

## What's in It for Your Customers?

### Real-Time Remediation

From CVE to patch in one motion. Works across Windows, Mac, Linux, and third-party apps

### Compliance Ready

Automate scanning policy, scripting, and virtual patching without slowing ops

### Set It and Forget It

One policy, Continuous remediation. No disruptions

## What's in It for You?

### 1 More Upsell Opportunities

Vicarius opens the door to compliance, mitigation, and scripting services.

### 2 Easy to Pitch, Easy to Fund

Complements Falcon, no overlap. Fits neatly into existing budgets.

### 3 Sticky Integration

Boost product usage, reduce churn, and show ongoing security value

### 4 Warmer Leads, Faster Deals

Vicarius is driving demand and joint campaigns are live now
